

# Traveler Security Program Assessment

## Peace of mind is knowing you're doing all you can to keep your travelers safe.

Take your travel risk management program to the next level with our comprehensive Traveler Security Program Assessment; the result of leading safety and security research and designed to help your organization align with ISO 31030: 2021 Travel risk management – Guidance for organizations.

The assessment provides insight on where your program stands today through a lens that is customized entirely to your organization, specific to your industry, your priorities, your corporate culture. Our travel risk management consultants use their first-hand expertise to perform an objective analysis of your program across 11 key areas and delivers personalized findings. Our employee engagement specialists then craft a communication strategy to keep your travelers educated and engaged in travel safety.

Your results will be specific and actionable - digging deep into each area to help you build a travel risk management program that keeps your travelers safe while giving you peace of mind.

### Discovery session

Our experts will lead you through a full-day session designed to thoroughly assess your current program.

### Personalized analysis

We'll identify your organization's strengths, but most critically, areas for improvement. We'll include detailed recommendations, ranging from immediate actions to mid-term and long-term objectives.

### Employee engagement

We'll assess your objectives and create a communications plan to drive behavior change and support change management to ensure the success of your plan.

**The experience was spectacular, the team was great, and they made us think a lot about what we were doing and what we needed to change. Regardless of how good you think your program is, I can guarantee they will find something that will open your eyes and make you think twice.**
